EXCELLENCE IN EDUCATION

FUNDING THAT MAKES A DIFFERENCE

Our Excellence in Education fund is making two exciting new endeavors possible at Santa Rita Elementary School. Students will have access to a state-of-the-art, hands-on STEAM lab that will teach vital skills in science, technology, engineering, art and math. An after-school robotics program will also be added as way for children to prepare for their futures. Plus, Santa Rita Elementary is the only school in Texas with a 3-D printer (provided through Excellence in Education Funds)!
